

**City of Beaverton
2005-2010 Consolidated Plan for Housing
and Community Development**

CDBG Needs Questionnaire

The Community Development Block Grant (CDBG) program helps communities invest in decent housing, a suitable living environment, and expanded economic opportunities. CDBG funds can be used for a variety of purposes, including public improvements, public services, housing, and economic development; in general, the funds must benefit low-to-moderate income people.

This questionnaire will help the City gather information regarding the highest priority community needs for the 2005-2010 Consolidated Plan, which will guide CDBG funding decisions for the next five years. We appreciate your participation in this process.
